## OCULUS Universal Trial Frame UB 5

A Universal Trial Frame from OCULUS for small heads and children

### Function

- Space for a total of 10 t/s trial lenses of 28 mm diameter\*
- PD range from 40 - 72 mm
- Adjustable temple tilt and length
- Smooth axis adjustment
- CVD scale
- Additional coloured operating elements

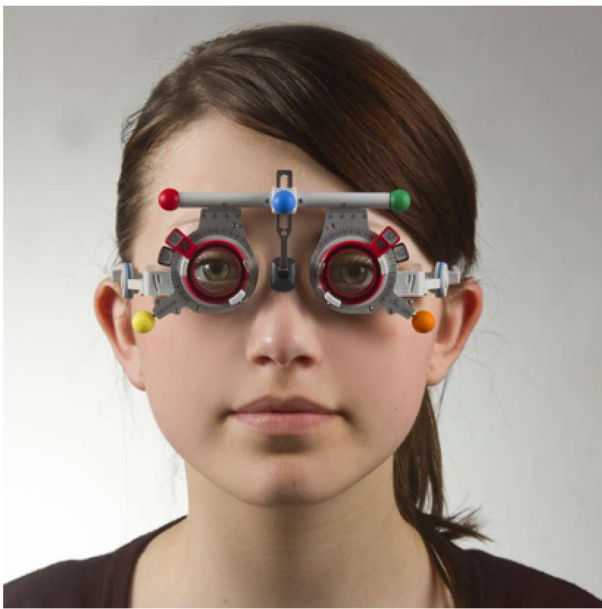

## Ergonomics

- Easy trial lens insertion
- Nose bridge adjustment with locking mechanism
- User-friendly controls in "soft design"
- With coloured operating elements to encourage children's acceptance

## Comfort

- Low weight for greater wearing comfort
- Good distance between operating controls and the patient's face
- Minimal pressure thanks to large rests and optimal weight distribution
- Flexible ear pieces
- Closed frame temple design prevents hair from getting caught
- Newly developed, soft nose rest (included)

## Options

- Slip-on linear polarizing filter (45°/135°), reversible (V-/A position), pivotable and reversible
- Slip-on linear polarizing filter (45°/135° and 90°/180°), pivotable and reversible
- Adaptation for various nose rests
- Trial lens cases BK S line for UB 5

## Material

- Dermatologist recommended safe materials

## Design

- Colour accents are appealing to children
